power and magic in it.*

Visigraf Institute was founded in the year 2000 by Sharon R. Skolnick, B.I.D., M.Ed., as an arena in which to expand her graphics office, VISIGRAF/Sharon Skolnick Design, to include research, exploration and production across visual, auditory, broadcast and cyber media.

With the addition of videographer/photojournalist Bruce Bagnoli, Visigraf Institute is well-equipped to tackle a wide range of 21<sup>st</sup> century projects and challenges.

Visigraf's clients have included new authors, seniors capturing multimedia memoirs, socially conscious non profits, small business start-ups, alternative healers, ethically responsible corporations — and you as well, perhaps, should the necessity arise for exceptionally conscious and effective design communications solutions.

Visigraf offers affordability, efficiency and conscientious follow-through from concept to final product or project. We work along with you from the start, respecting your vision and nurturing your idea into full-bloom.

Visigraf produces topflight graphics for print and web, along with unparalleled slideshow presentations, trade show graphics, academic or architectural reports, photojournalism and photo/art.

Beneath the Visigraf Institute umbrella are: VISIGRAF/Sharon Skolnick Design (print and web graphics/industrial design/photography and illustration); Time Tracks (personal history archives), Spaceframe Press (book packaging/editing/subsidy publishing) and Production Design Services (videography, nonlinear a/v editing and motion graphics).

You have something to say; Visigraf can offer you the skills and processes to say it unforgettably.

We put  
your  
message  
here.
